Detailed Action

Response to Amendment

1. Applicant's Remarks/Arguments filed on 11/10/2005 regarding claims 73-132 have been fully considered. Claims 73-132 are currently pending and claims 1-72 have been canceled by applicant.

EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

The present application relates to providing a multiple access communication method and apparatus that transmits a USF (Uplink Status Flag) to a mobile station on a downlink slot, including the unique steps of:

“when the shifted USF operation is used, then the USF which instructs the mobile station to perform uplink transmission on the first uplink slot is transmitted on a second downlink slot which is different from the first downlink slot.”

The closest prior art, Chillariga et al. (US Publication 2001/0030956 A1), discloses a dynamic channel allocation communication system in which it performs a logical shifting of USF block information from one multi-frame to the next multi-frame. However, Chillariga fails to anticipate or render obvious the above quoted limitations of the present application. This renders the claims allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
